URBAN DISTRICT OF ALFORD

The Annual Report

of the

Medical Officer of Health 1958

A. LOFTUS, L.R.C.P., L.R.C.S., D.P.H.

Health Department,  
The Clinic,  
Cecil Avenue,  
Skegness.

*To the Chairman and Members of the  
Alford Urdan District Council*

Mr. Chairman, Ladies and Gentlemen,

I have pleasure in presenting my second Annual Report on the Health of the district for the year 1958.

During the year the population dropped from 2,140 to 2,100, forty less than the previous year. 44 Deaths occurred giving a death rate of 20.9 compared with a national rate of 11.7. There were 35 births, 10 more than the previous year, a birth rate of 17 per thousand of the population, rate for England and Wales 16.4. 65 cases of Infectious Diseases were notified, 57 Measles, 5 Pneumonia and 3 Food Poisoning. It is pleasing to note that there were no cases of Diphtheria, Whooping Cough, or Poliomyelitis. For this happy state to endure it is necessary to maintain protective immunisation.

There were no houses built during the year by the Local Authority. Demolition Orders were made in respect of 5 houses, and 10 houses were confirmed in Slum Clearance Orders. 9 applications were received for improvement grants, all of which were approved.

Refuse collection is undertaken by the Council bi-weekly and disposal of this refuse is by control tipping which is satisfactory.

The water supply continues to be ample and of excellent quality, the pumping distribution system has continued to operate with the minimum of trouble. There is however need for a chlorination plant to safeguard the supply when works have to be carried out at the pumping station and reservoir, it is pleasing to note that the Council have resolved to take steps to install a chlorination plant. During the year a new three inch main was laid in Carr Lane to improve water pressure in this area.

The two private slaughterhouses continue to work satisfactorily and food premises were inspected under the Food Hygiene regulations and help and assistance given where necessary.

I take this opportunity of thanking the Chairman and members of the Health Committee for the interest they have shown in the work of the Department, and to Mr. Carline, Chief Public Health Inspector and members of the staff for their helpful co-operation.

I am,

Your obedient servant,

A. LOFTUS,  
Medical Officer of Health.
